Introduction

Long furniture delivery times & shortage of skilled workers delay projects

When purchasing furniture, the furniture must be accounted for and depreciated over a period of 7 to 13 years according to depreciation rules.

No sustainable solution for “afterwards”. New EU sustainability reporting standards from 2025.

About us

Flexible and sustainable The furnishing solutions by Lyght

✓ Fast Delivery:

Offices and apartments fully furnished and move-in ready in no time.

✓ Immediate Depreciation:

Monthly rental payments can be expensed immediately (no activation according to depreciation rules!).

✓ Sustainable:

All furniture is professionally cleaned and refurbished in our in-house "Circular Islands" repair workshops after rental.

About us

Lyght Shines on ZDF: Our Commitment to Sustainable Furniture Solutions.

We are proud that our commitment to sustainability in the furniture industry was featured on ZDF.

This recognition by ZDF highlights our dedication to innovation and sustainability, and we are proud to be at the forefront of responsible furniture management.

ESG Sustainability

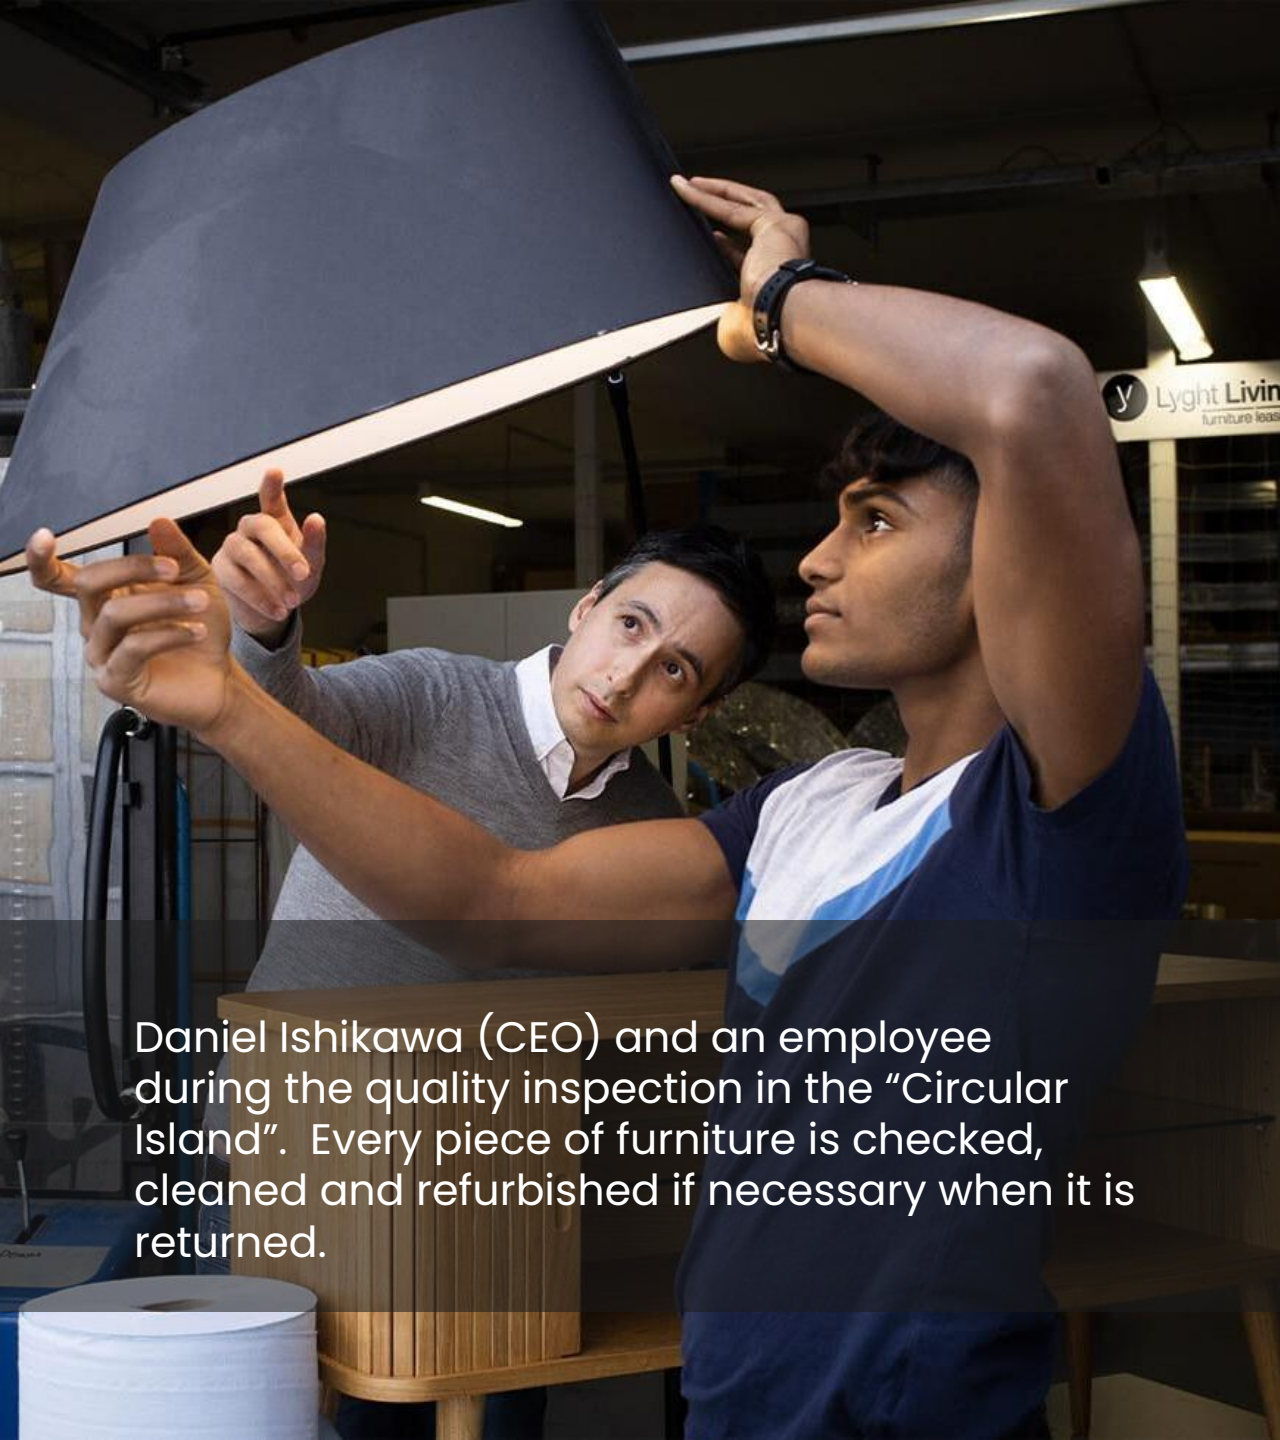

“The Corporate Sustainability Reporting Directive (CSRD) marks a significant step towards more comprehensive and transparent sustainability reporting within the European Union. This directive transforms sustainability reporting from a purely voluntary to a mandatory element of corporate governance. The sustainable furnishing of office space or employee housing, for example through the temporary use of rental furniture, can be a measure to achieve sustainability goals.”

Melanie Peschel, Managing Director of Tracemaker

Tracemaker offers stakeholder communication training for sustainability

Sustainability managers from all areas of the company
